

PANAMERICAN INSTITUTE OF GEOGRAPHY AND HISTORY

Specialized Organization of the Organization of American States

CALLS

TO THE PRIZE

Pedro Vicente Maldonado

DEVOTED TO THE OUTSTANDING

Ph.D. DISSERTATION IN CARTOGRAPHY, GEODESY

AND/OR GEOGRAPHIC INFORMATION SCIENCE

2022 EDITION

The prize is intended to promote and recognize the academic and scientific works performed by graduates from official Ph.D. programs of organizations or universities located in any of the Member States of the Pan American Institute of Geography (PAIGH) or by citizens of those states graduated elsewhere. It will be awarded in the general areas of Cartography, Geodesy and Geographic Information Science, including aspects like capture, manipulation, presentation and dissemination.

The thesis should have been presented between January 1st, 2016 and December 31th, 2021, and can be written in any language.

In order to apply the candidate should provide a summary, written in any of the PAIGH's official languages (namely english, spanish, french or portuguese), formatted as a scientific paper of no more than 20 pages including a description of the topic considered, the references considered, a description of the work performed, stating the conclusions and highlighting the

importance of the work and its contributions to the development of knowledge or the procedures used. Such summary will be the base of the candidate's evaluation to be performed.

A first prize and up to three mentions will be granted. The document could be published by the Commission journal *Revista Cartográfica*, the web page of the Cartography Commission, or any other means available to PAIGH so the copyright should be transferred.

All those interested should apply with the requested documents between May 1st and 31th, 2022 using exclusively electronic means.
